- You may visit the Secrets in any order.
- Your ribbon must be worn visibly on the upper left arm at all times. Your Names (if you have any) must be worn visibly on your right wrist. Hiding either your ribbon or your Name is considered cheating, and is punishable by death.

\* necessary assistive technology is of course acceptable

#### TAGGING:

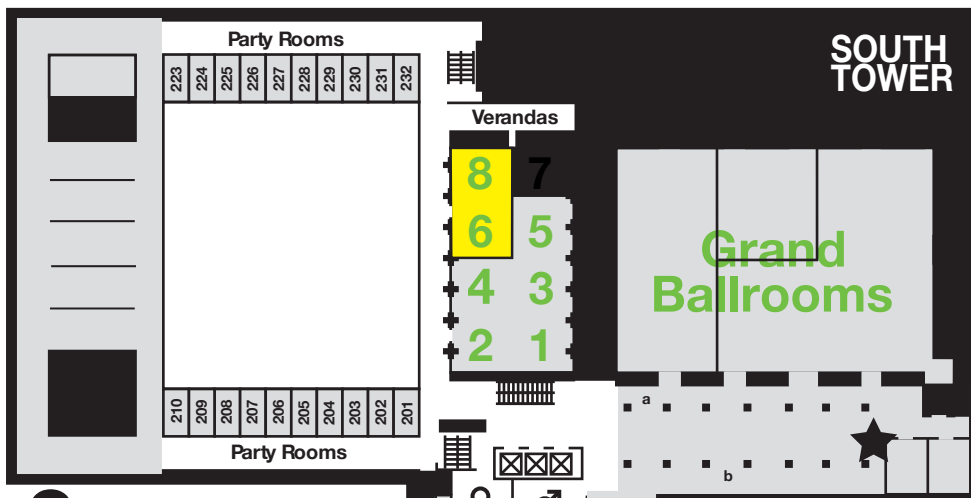

- 1) All tags must be clean and fair.
- 2) If there is any dispute over the fairness of a tag, it must be decided in the favor of the Player who was tagged. [Don't attempt a tag unless you're sure you're in fair territory!]
- 3) All disputes must be settled by Players present, at the time of the tag. If the tagged Player does not challenge an unfair tag at the time that the Name is handed over, the tag is fair. [no disputes will be handled at the finish line]

#### SAFE ZONES:

No tags are allowed within designated safe zones (all other locations in the city are fair, even if it is off the map. Elevators are NOT SAFE)

#### INVULNERABILITY:

Players are invulnerable to being tagged while they are collecting Names from someone they have just tagged. This invulnerability lasts for 30 seconds after the last Name is handed over.
